	Your browser is managed by your organization								
Settings	System								
Q Search settings	Startup boost Cet to browsing quickly. When this is on, it helps Microsoft Edge open faster when you start your device. Learn more								
Privacy, search, and services	Continue running background extensions and apps when Microsoft Edge is closed								
Sidebar	Use hardware acceleration when available								
Start, home, and new tabs Share, copy and paste	Open your computer's proxy settings								
Cookies and site permissions  Cooki	Optimize Performance								
业 Downloads 왕 Family safety A <sup>†</sup> Languages ☞ Printers	Efficiency mode () Helps minimize power usage by saving computer resources. Benefits may vary depending on your device, applications, and individual browser habits. While the efficiency mode in Microsoft Edge may be turned oft, it's possible that the Windows efficiency mode is still active and working to save resources on your device, as indicated in the Task Manager.								
<ul> <li>System and performance</li> <li>Reset settings</li> </ul>	Improve your PC gaming experience with efficiency mode When you're playing a PC game, Microsoft Edge reduces its computer resource (CPU) usage to create a better gaming experience.								
Phone and other devices  Accessibility	Save resources with sleeping tabs When this is on, inactive tabs will go to sleep after a specified time to save system resources. Learn more								
C hoose macoon rage	Fade skeeping tabs								
	Put inactive tabs to sleep after the specified amount of time: 1 hour of inactivity $\vee$								
	When efficiency mode is on, inactive tabs will be put to skeep after 5 minutes or less. Actual time may vary depending on resource usage and activities that prevent a site from deeping (e.g. playing audio).								
	Never put these sites to sleep Add								
	Ins also excludes sites strom other performance optimizations like discarded table, ethoency mode, and more. No sites added								

## 3. Στη συνέχεια Network & Internet και Set up στο Use a Proxy Server

## 4. Συμπληρώνουμε

Proxy IP Address: proxy.hcmr.gr Port: 8080

## Και πατάμε Save

5. Στη συνέχεια συμπληρώνουμε το User Name του mail μας (χωρίς το @hcmr.gr) και το password.
